Wrens Class

This week in 'Read Write Inc' some of Wrens class have been practising being 'perfect partners' and helping each other with our reading. Look at how well our teachers are pointing at the words and supporting their friends. Great teamwork Wrens.

Puffins Class

Super Swimmers!

Year 3 and 4 have been swimming this week and it has been wonderful to see them challenge themselves and some to even overcome their fears! We have had some amazing comments about how sensible, polite and well-mannered children from Pensilva are. Well done and we are extremely proud of you all.

Buzzards Class

This week, Buzzards class have been taking part in the end of term assessments, this has taken up the majority of their mornings. The children have been busking in the front playground at the end of the school day. They will be doing this again the week of Monday 28th June. They sound amazing and any donations (for the year 6 leaver activities) will be greatly appreciated! However, along with the rest of the school, they have done an initial practice run for Sport's Day. It has been the first time that children in Buzzards class have seen the children in Wrens class. Although of course, this was at a safe distance across the playground.

Dates for your

Monday 21st—Friday 25th June—Year 5 and 6 swimming at Lux Park

Wednesday 30th June—Sport's Day

Wednesday 7th July—Reserve Sport's Day

Join us as we undertake a 3 hour BioBlitz - a race against the clock to record as many species as possible!

It is also an excellent opportunity for you to learn new identification skills. You can either explore the site by yourself or join us on guided walks as we try to find as many plants, animals and fungi as we can.

Who is it for?
You! All ages and abilities are welcome. We need keen eyes to seek out new species. We will have experts and field guides on hand to help identify what you have found.

What can be found at St Martin's?
That's what we're here to find out! We are expecting to find bees, butterflies and other insects using the recently planted wildflowers. There should also be plenty of songbirds in the trees overhead, and possibly signs of hedgehogs.

Early birds can join us at 8:00am to watch us open the mammal traps!
