

Topic – The Ancient Greeks

Show your child the Powerpoint presentation on the four main eras of Ancient Greek pottery for examples of the different pottery found during the four main eras (I won't ask you to make the Ancient Greek layer cake, but if anyone is super keen to make one, let me know and I'll send you the recipe! It does look very nice!)

The children will make a pot during each session to represent the styles of pottery from these four eras (this can be clay, plasticine, salt dough, whatever you can manage).

Activity 1

Show the document on how to make an Ancient Greek pot for instructions on how to make two pots – one with handles and a thumb pot. The one with handles is a bit more tricky. I would love to see pictures of the finished articles! If you need a recipe for salt dough, just ask.

Activity 2

Research the Minoan and Mycenaean eras. Write some facts in books.
